A. CLA	SSIFICATION	OF SUBJECT	MATTER	
IPC	7 C07	K16/42	C07K1	.6/28

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols) IPC 7 C07K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data

C. DOCUM	ENTS CONSIDERED TO BE RELEVANT	
Category °	Citation of document, with indication, where appropriate, of the relevant pa	ssages Relevant to claim No.
x	LIU ZHANQI ET AL: "Generation of anti-idiotype antibodies for applicatin clinical immunotherapy laboratory analyses." HYBRIDOMA AND HYBRIDOMICS. AUG 2003, vol. 22, no. 4, August 2003 (2003-08) pages 219-228, XP001204008 ISSN: 1536-8599 the whole document	
<u> </u>	ther documents are listed in the continuation of box C.	Patent family members are listed in annex.
"A" docum consi "E" earlier filing "L" docum which citatic "O" docum other	ent defining the general state of the art which is not dered to be of particular relevance is document but published on or after the international date ent which may throw doubts on priority claim(s) or is cited to establish the publication date of another on or other special reason (as specified) "Y" do ent referring to an oral disclosure, use, exhibition or means	er document published after the international filing date r priority date and not in conflict with the application but ited to understand the principle or theory underlying the invention current of particular relevance; the claimed invention annot be considered novel or cannot be considered to involve an inventive step when the document is taken alone current of particular relevance; the claimed invention annot be considered to involve an inventive step when the ocument is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

International application No. PCT/US2004/025789

Box II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)
This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:
1. X Claims Nos.: because they relate to subject matter not required to be searched by this Authority, namely:
Although claim 23 is directed to a diagnostic method practised on the human/animal body, the search has been carried out and based on the alleged effects of the compound/composition.
Claims Nos.: because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. Claims Nos.: because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).
Box III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)
This International Searching Authority found multiple inventions in this International application, as follows:
·
As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
·
4. No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:
Remark on Protest The additional search fees were accompanied by the applicant's protest.
No protest accompanied the payment of additional search fees.
